

# Recovery Field Services

**W**hether your equipment is underperforming, operating inconsistently or has broken down unexpectedly, Sure Controls can restore you to production quickly and efficiently, keeping expensive downtime to a minimum. If your issues are parts-related, we'll work to repair them, as appropriate, to get you back up and running for a reasonable cost.

## Responsive Services

Downtime creates frustration, disappoints customers and runs up big costs quickly; call us for your urgent needs.

- **Telephone support** – Whether your team can't resolve a problem or just doesn't have all the experience or knowledge you need, call us. We'll get you back up and running quickly and efficiently.
- **On-call field support** – When trying to restore a down machine and your team needs added experience and expertise, our on-call field support technicians will come to your location to make repairs that last so you can meet customers' needs.

## Commissioning Services

When implementing new technology or equipment in your operation, we can get things running quickly and safely.

## Repair Services

Our repair services may be less costly than full equipment replacement and provides faster turnaround times. We can also restore components to working order as spares.
