

PLANT AUTOMATION TO MAKE YOU SMILE

► UNEQUALED RESPONSIVENESS

When you call Sure Controls you get a real live human being, who knows the market, the products, and is there to listen and understand your situation in order to direct you to the best possible resource for your automation needs.

Services

Sure Controls has solutions for all manufacturing phases. Including – drawings and documentation, programming, safety, field service, compliance and testing.

Field Service

- Reachable 24/7/365
- In person and over the phone
- Preventative and recovery

Repairs

Repair or replace? Let us assist you in making the best business decision. We will work with you to assess immediate and long-term costs.

Calibrations

Correct small problems before they become big and expensive. Keep equipment and processes within manufacturers specs, reducing scrap and unwanted downtime.

- NIST Traceable
- A2LA Accredited

► PRODUCT LEADERSHIP

Standard, Custom, Difficult to Find

Off-the-shelf or made-to-order we have the optimal solution to maximize production. Looking for a replacement part? Visit our webstore. Need a little guidance? Let our technical team source the best parts for you. Require a more complex solution? Let Sure Controls put our expertise to work for you, exploring alternate approaches and solutions.

► DESIGN FORESIGHT

Engineered Solutions

We design and implement tailored solutions to help you increase production speed, lower expenses, and manufacture consistent product quality. Sure Controls maintains a library of projects with Rockwell Automation and we are certified partners of Siemens and Parker Hannifin.

Control Panels and Production

Control Panels typically don't wear out. But updating technology can lead to reduced energy usage, increased functionality and safety. Let us put our experience to work for you and help you position your plant for peak performance. We provide design/build services or will build to your specifications, all in house.

- Design, assembly, wiring
- Clean efficient layouts
- UL, CSA, and CE compliant panel design available
- Field installation and training available

SIEMENS

CORE COMPETENCIES

Sure Controls Inc.™

Robotics

Sure Controls has collaborative and micro-automation robotics solutions. Our experts understand system automation and how to fully integrate a robotic solution.

Web Handling

Sure Controls will work with your company to design and build systems to maintain optimal control. We have service techs and process engineers who have client-side experience in web handling and are here to help diagnose and solve your issues.

Plant Intelligence

Implement automated manufacturing data solutions that will empower your company with real-time production information. Streamline the flow of critical information to capture true costs and to make critical business decisions.

Thermal & Fluid Process

Sure Controls is your go to place for pressure transducers, infrared non-contact sensors, thermocouples / RTDs, and transmitters. Our product portfolio also includes SSRs, heaters, and pressure transducers.

Safety

Sure Controls is at the forefront of factory automation and safety. We provide custom machine guarding, safety relays, and light curtains.

Call for complete list.
